## PROJECTS

|                                                                                                                                                                                                        |                     |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|
| <b>Smart Health Advisor   JavaScript, Python, ML, Cryptography</b>                                                                                                                                     | Mar 2025 – Dec 2025 |
| <ul style="list-style-type: none"><li>– Built an AI-driven system to predict chronic disease risks using ML models.</li><li>– Secured sensitive health data using <b>AES-256 encryption</b>.</li></ul> |                     |
| <b>Cryptography System   Python, Flask, AES</b>                                                                                                                                                        | Apr 2025 – May 2025 |
| <ul style="list-style-type: none"><li>– Created a secure encryption/decryption web application using AES.</li><li>– Enabled secure communication with key distribution techniques.</li></ul>           |                     |
| <b>Courier Management System   PHP, MySQL, JavaScript</b>                                                                                                                                              | Oct 2024 – Dec 2024 |
| <ul style="list-style-type: none"><li>– Designed a database-driven platform for parcel booking and tracking.</li><li>– Implemented authentication and branch management modules.</li></ul>             |                     |

## TECHNICAL SKILLS

**Languages:** Python, HTML, CSS, JavaScript

**Frameworks:** React.js

**Databases:** MySQL

**Tools:** Git, GitHub, VS Code

## CERTIFICATIONS

- **Cyber Security Foundation** – Infosys Springboard (2025)
- Completed 6+ industry-recognized certifications in Cybersecurity, AI/ML, and Big Data through Infosys Springboard.

## LANGUAGES & INTERESTS

**Languages:** English, Kannada, Telugu

**Interests:** Problem Solving, Cricket, Video Editing
